Dear Sir,

RE: “THE TITLE OF YOUR PROTOCOL”

Thank you for taking the time to review the protocol that was submitted and for the comments/ suggestions proposed. Below are the responses to the comments

1. Title

Comment

The reviewers proposed that the title be changes to “New Title”

Response

The title has been changed as suggested to “New Title”

2. Background

2a. Comment

The reviewers noted that the background was too brief and did not include information on sub-saharan Africa where the proposed study is to take place. The principal investigator has been advised to include more information in the background to make it more comprehensive

Response

More information has been included in the background.

2b. Comment

The problem statement does not clearly show the gap in knowledge. The principal investigator is advised to add more information on the gap

Response

More information has been included in the problem statement including the magnitude of the problem in the study area.

Methodology

a. Comment

The proposed sample size 400 seems too large to be achieved in the proposed time period.

Response

The time period has been extended to add an additional 1 month to allow for the sample size to be achieved

OR

Response

The sample size has been recalculated and has been readjusted to 280 participants to be able to fit in the proposed time frame

I look forward to hearing from you.

Yours,
